👉 How-to 👈:

freevlog.blogspot.com

How to videoblog and host your media for free!

videoblogging.info

How-tos, FAQ, List of videobloggers, list of recent video posts

★ Host Media for free ★:

Internet Archive archive.org

The Internet Archive is a public nonprofit that was founded to build an 'Internet library,' with the purpose of offering permanent access for researchers, historians, and scholars to historical collections that exist in digital format.

Our Media ourmedia.org

A branch of the Internet Archive. We provide free storage and free bandwidth for your videos, audio files, photos, text or software. Forever. No catches.

flickr flickr.com

For hosting photos and video stills to link to your blog.

Feedburner feedburner.com

Publish using Feedburner so people can subscribe to and download vids from your blog.

☂ Find videos ☂:

ANT antnottv.org

ANT is a free RSS video aggregator and media player currently available for Mac OS X 10.3 Panther. With ANT, you can subscribe to any RSS 2.0 feed with enclosures. ANT will automatically download fresh audio and video content for you to watch and listen to. It can playback any media format, and syncs audio files with iTunes so you can easily add them to your portable MP3 player.

Mefedia mefeedia.com

Mefedia.com is a free web based aggregator for videobloggers. It lets you subscribe to videobloggers and tag videos.

☺ Join the Community ☺:

Yahoo Group E-mail List <http://groups.yahoo.com/group/videoblogging>

We discuss practical issues (bandwidth, process, need for a videoblogging tool) and more philosophical issues (why and what is a videoblog? ...). Join the conversation! A very good group has gathered here to make videoblogging a reality.
